About

I am a web developer enthusiast with three years of experience and corresponding skills. I have built and learned on projects of various scales, from small to large-scale websites, and can adapt to any. My programming background has provided me with an understanding of how software operates and the reasons behind its functionality. This enthusiasm drives me to continually learn more about the ever-evolving world of technology.

Education

2021

- SMK TI Bazma

Ongoing Study

Passionate student deeply committed to exploring the dynamic realm of technology, particularly in web development. I've actively translated my learning journey into impactful projects, showcasing my dedication and proficiency as a web developer over the past few years.

Experience

- **Frontend Developer**

Bootstrap | Laravel

As a frontend developer in an inventory refinement project, I played a key role in developing an innovative look for the application. Collaborating with a dynamic team of engineers and utilizing Laravel as the main framework, I contributed to the design of the app's interface, optimizing the user experience for users within the institution.

- **Fullstack Developer**

Laravel Framework

As a full-stack developer for an interactive news portal application, I take on the responsibility of implementing CRUD operations, a fundamental concept in application development. Additionally, I design and manage the database using Laravel's migration functionality, providing a structured system to store all user-input data. The interactive features are implemented using object-oriented programming (OOP) in PHP.

- **Web Developer Using WordPress**

WordPress | CMS

In this project, I built an application using WordPress, with a primary focus on feature development through Elementor to build an e-commerce platform. Being involved in a project that involves data processing and user engagement features, I applied my expertise to ensure seamless

Volunteer Experience

- **Student Council**

Public Relation | Secretary

In intra-school roles, I've been PR and Secretary, driving effective internal and external communication. Proficient in MS Office for documentation, showcasing organizational efficiency
